

# Payment is Just a Few Clicks Away

ReceivePay Secure Invoicing allows your customers to click-and-pay invoices electronically via their checking account or credit card.

## Create Professional Click-and-Pay Invoices Directly from Microsoft Word

With ReceivePay Secure Invoicing you can instantly create professional, payment-enabled invoices directly from Microsoft Word. Easily add a secure, encrypted payment link to any invoice with an integrated Word menu option, then email the invoice directly to your customer.

## Accept Payments 24/7

Your customers simply click to pay through a secure web page customized for your business. Accept multiple payment tenders including credit card and electronic checking – even offer partial payments. And, with ReceivePay's always-on real-time access you can accept payment 24/7.

## Save Time and Money

ReceivePay Secure Invoicing dramatically increases your efficiency, while saving countless hours of payment collection, data entry, and accounting time. Process payments in real-time and automatically update accounting records. ReceivePay Secure Invoicing ensures timely payment, and reduces unpaid invoices.

## Grow Your Business

ReceivePay Secure Invoicing consolidates daily business activities into one simple solution. The result? You'll spend less time managing accounting tasks and more time growing your business. Accelerate receivables to improve cash flow, reduce borrowing, and increase investments.

## Go Paperless and Go Green

Reduce paper waste, postage costs and eliminate trips to the bank and post office. ReceivePay Secure Invoicing is the perfect way to transition from paper-based to electronic invoicing. With ReceivePay Secure Invoicing it's easy to go green, and it's good for the environment and your business.
